## PROFESSIONAL SUMMARY

Motivated and detail-oriented fourth-year Information Technology student seeking an opportunity in web development to apply strong skills in building dynamic and user-friendly applications. Experienced in developing systems using the Laravel framework, with a focus on responsive design, database management, and efficient backend integration. Passionate about creating scalable web solutions and continuously improving development practices.

## ACADEMIC PROJECTS

### Hotel Booking System with Web-Based Virtual Tour (Ongoing Capstone Project)

Role: Full Stack Developer | 2024-2026

- Currently designing and developing a web-based hotel management and booking system integrated with an interactive virtual tour feature to enhance user experience and decision-making.
- Implemented core functionalities such as user authentication, room booking management, virtual tour navigation, and an administrative dashboard.
- Developed using Laravel (PHP), MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Aims to improve booking efficiency, streamline hotel operations, and provide an immersive digital experience for users.

### OSCA Masterlist System

Role: Full Stack Developer | 2026

- Designed and developed a web-based system for managing senior citizen records under the Office for Senior Citizens Affairs (OSCA).
- Implemented core functionalities including adding, editing, and deleting member records, as well as importing and exporting data through Excel files for efficient data management.
- Developed using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Improved data organization, accessibility, and processing efficiency for managing large volumes of member information.

## EDUCATION

### Bachelor of Information Technology

Quirino State University

Graduated: 2026
